Goal

Junior Frontend Developer

About:

In the field of frontend development, I am using JS, React and Three.js libraries and CSS styles. Have knowledge of SQL, experience in backend development using PHP. I use GitHub as a version control system. I attended an internship at EpolSoft for 3 months as frontend developer. Now I am continuing to study JavaScript and React while creating projects for my portfolio. I am hardworking and sociable, like to work in a team.
