PROFILE In the field of frontend development, I use JS, React, Vue.js and CSS/SCSS/Tailwind. Have knowledge of SQL, experience in backend development using PHP and Laravel. I use GitHub as a version control system. I attended an internship at EpolSoft for 3 months as a Frontend Developer (React). Today I work for Encore Studio as a Junior Full Stack Developer and participate in the development of the application, using PHP and Laravel for backend development and JavaScript and Vue3 for frontend development.
